SUMMARY

Motivated Full Stack Web Developer with a Mechanical Engineering background dedicated to life-long learning and creating user-friendly applications. Passionate at continuous learning for self improvement. Excel in being a team player with the ability to communicate efficiently and remain calm under pressure.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, MySQL
Applications: Bootstrap, Skeleton, Materialize, jQuery, API, AJAX, Node.js, Jest, Express, Handlebars, Sequelize

PROJECTS

Schoolgle | GitHub Link: https://bit.ly/34KlDxd **| Deployed Link:** https://bit.ly/31LvIIF
Schoolgle helps parents and caregivers decide where to send their children to school through an easy-to-use interface backed by data provided by the Australian Education Department.
- Created static files for the search page, added functionality to SchoogleList, which is a short list of schools added by the users from the search page, and assisted team members various elements of the application
- Tools and languages used: HTML, CSS, JavaScript, jQuery, Materialize, Node.js, Express, Handlebars, MySQL, Sequelize, Passport.js, bcrypt, Print.js, Travis CI

Actor Addict | GitHub Link: https://bit.ly/2DlJNm5 **| Deployed Link:** https://bit.ly/2O8q7Eu
Actor Addict allows searching for a movie and displays the top news relating to the movie, the plot, director and actors, the films poster and ratings as well as GIFs related to the film.
- Utilised GNews API, constructed AJAX method to extract recent news related to the searched movie and dynamically attached the information on application
- Tools and languages used: HTML, CSS, JavaScript, jQuery, Skeleton, server-side APIs (Gnews, GIPHY, OMDB), AJAX

Operational Specialist   September 2019 – January 2020
Beam Scooters   Adelaide, SA
Relocated illegally parked or abandoned scooters to allocated locations, maintained scooters conditions and assisted in loading and unloading of scooters to designated deploy zones. Effective communication skills required in a face-paced and team-based working environment.

Key Accomplishments:
- Maintained sufficient number of scooters available for hire during the World Solar Challenge using strong organisational and planning skills.
- Led the operation team for the Tour Down Under achieving full compliance and success of the event.

Full Stack Development Coding Bootcamp Certificate: University of Adelaide, Adelaide, SA
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Express.js, React.js, Node.js, Database Theory, MongoDB and Command Line.

Bachelor of Engineering (Mechanical and Sustainable Energy): University of Adelaide, Adelaide, SA
